COMMUTER STUDENTS

Wheelock College offers a number of services designed to integrate commuter students into the life of the campus. Our goal is to support you as you become as involved as you choose to be. Bryan McGrath, the Assistant Dean of Students, and Jonathan Lewis, the Associate Director for Student Success, oversee the needs of the commuter students. The Commuter Lounge is located in the lower level of the Campus Center and is a great place for commuter students to spend time between classes, meet other commuter students, and find out what is happening on campus. It is equipped with a television, refrigerator, microwave and networked computers and a printer. Commuter lockers are located just outside of the commuter lounge and are free for commuters to use to store their belongings while they are on campus.

PARKING ON MOVE-IN DAY

Please be sure to note the important parking information listed below, as it will help all families during the move-in process. We will have uniformed State Police and Wheelock Public Safety officers posted along the Riverway and Pilgrim Road to assist with the flow of traffic and direct vehicles as needed.

- There is NO PARKING on Wheelock College campus property on move-in days (Saturday, Sept. 3 and Sunday, Sept. 4)

- There is no permanent parking on either the Riverway or Pilgrim Road during move-in. Families will be permitted to unload their student’s belongings at the curb, and once the unloading is complete, families must move their vehicles to one of the local parking garages (MASCO Garage or Landmark Center Garage).

- Pilgrim Road is one-way; therefore, vehicles will be allowed to pull up curbside only in the direction of travel for off-loading purposes. A valid driver must remain with the vehicle at all times. DO NOT park on the Simmons side of Pilgrim Road, as we must maintain a lane of travel for emergency vehicle traffic.

- Those moving into the CCSR will be permitted to offload their vehicles in the open air lot on Pilgrim Road. Drivers must utilize the designated parking spots, and a valid driver must remain with the vehicle at all times. Once the unloading is complete, families must move their vehicles to one of the local parking garages.

Our staff is available to assist students as they clarify their needs and goals, and to support them in their efforts to find ways to make healthy lifestyle choices.

TECHNOLOGY RESOURCES
The Wheelock Technology department provides resources to support learning, collaboration and communication among students, faculty and staff. We also provide a suite of services that make living or commuting to Wheelock a home away from home.

Computers on Campus: All students are recommended to bring a computer to campus. We do require that all computers attached to the Wheelock network have up-to-date operating systems and licensed anti-virus and anti-spyware programs installed and running. Our recommended computer specifications for 2010/2011 are:
- A Windows-based or Apple machine purchased within the last 2 or 3 years
- 2 GB or more of RAM
- 160 GB HD or greater
- Laptops are encouraged

Our support services are extended to any student for non-hardware related issues—we are happy to provide troubleshooting and advice regarding any student computer regardless of where it has been purchased. For both resident and commuter students, there are a number of publicly available computers for work and enjoyment. We have a number of public computers in the library, classrooms, the Campus Center, and residence hall common areas.

Email Account: All students are provided with a computer account and unique email address. Wheelock uses email to inform students of campus wide events, gatherings, and important announcements—it is our official means of communication and all students are required to use it.

On-Line Academic Services: The Technology department collaborates with each Wheelock academic and administrative department to deliver a suite of on-line services to students that can improve their academic experience. Our ‘MyWheelock’ site provides immediate information on registration, academic advising, campus events, and more. You can reach the ‘MyWheelock’ service by clicking on the ‘MyWheelock’ link off of the main Wheelock web page, and then entering your student ID number and password you received at registration.

Telephone: We know that most students prefer to use personal cell phones. For those who wish to use the college phone system, we can provide a phone service where there is no fee for local calling or voicemail; for long distance calling, we suggest a number of inexpensive calling cards from local and online retailers.

Cable Television: Each dormitory room is provided a Cable-TV connection. Students must bring a CATV compatible television and RG-6 connection cable for access. If you have cable TV at home and the television and television cable works in your home and can receive the basic cable channel lineup (channels over 13) this means it will work in your college room. High definition TVs with a digital QAM tuner will be able to receive a selection of digital and high def channels—you must refer to your TV manual to see if it has this capability (a digital tuner from a store will not work, it must be Digital QAM compliant). Students in the Colchester dorm have a dedicated cable box which Wheelock provides—please hook your TV up to this device.

Network/Internet Access and Wireless Network Services: All students are provided a direct connection to the Internet from their room. We strongly recommend that students bring a computer with them. They will need to have a “network interface card” that connects their computer to the campus network and the Internet. Students will need a CAT5e or CAT6 office network cable to connect their computer to the College network. We recommend a 25 foot length cable.

Wireless internet access exists in all common areas of Wheelock, including the library, student center, and dining hall. All residence halls have complete wireless access. Students are NOT permitted to bring their own wireless access points to campus. Plugging these devices into our network can bring down your floormates’ network connections. If these devices are found in the residence halls, you will be asked to remove them from the network. Please have respect for your housemates and use our network services the way they are intended to be used.

If you have any further questions, please contact the Information Technology staff at anytime at (617) 879-2309 or helpdesk@wheelock.edu.

Should you run out of meals, you may use your Dining Dollars or Fenway Cash to pay for meals.
